

FOOD PRESERVATION & STORAGE AT HOME - A STEP BY STEP GUIDE TO CANNING, PICKLING, DEHYDRATING, FREEZING & SAFELY STORING FOOD FOR LATER USE by Susan Burnetter book PDF Download

Food Preservation & Storage at Home - A Step by Step Guide to Canning, Pickling, Dehydrating, Freezing & Safely Storing Food for Later Use LEARN:: Step by Step Strategies for 4 Food Preservation and Storage Techniques (Canning, Pickling, Dehydrating & Freezing) Do you wonder ANY of the following: How can I take advantage of in-season produce prices and eat them all year long? How can I safely prepare meals for my family for the week or month ahead of time? How can I be prepared to feed my family in case of a natural disaster or other state of emergency? If you find yourself asking any of these questions, then it's important for you to know these food preservation and storage techniques. YOUR GOAL:: Establish a 3 Month Food Storage Supply for You & Your Family I want to challenge you to gather enough food for you and your family to survive on for 3 full months, preserve it using canning, pickling, dehydrating and/or freezing strategies, and safely store it. Any number of things could happen today that could potentially leave you without an ample food supply. You or the primary income earner of your household could be laid off and unable to find work. There could be a natural disaster that contaminates our water supply and leaves us without food. These are just to name a few. If you are smart and start preserving and storing food at home to get you through these potentially devastating times, you and your family will have a greater chance of surviving any situation. DOWNLOAD:: Food Preservation & Storage at Home - A Step by Step Guide to Canning, Pickling, Dehydrating, Freezing & Safely Storing Food for Later Use Inside "Food Preservation & Storage at Home" you'll get step by step strategies for these top 4 methods of preserving foods at home.
